GREENHOUSE GAS EMISSION PREDICTION SYSTEM (DATA SCIENCE)

05/2023 - 06/2023

- **Won Inclusive Data Hackathon 2023**, besting a field of **250+ participants across 12 countries**
- Formulated **independent research methodology**, incorporating **web scraping** from IPCC, USDA and EPA websites to **construct emissions dataset**
- Employed **scikit-learn** algorithms for **data cleaning, processing, and model development**, achieving 98%
- Utilized **Python** in the backend for developing **ML pipelines** & model deployment on **Azure cloud**

ASSIGNMENT V/S LEARNING: A DESIGN THINKING CASE (PRODUCT)

09/2022 - 09/2022

- Utilized EAST(Empathize, Analyze, Solve, Test), design thinking paradigm to address learning challenges
- Conducted **customer journey mapping- identified the pain points** through **multi-why** approach and utilized **TRIZ methodology** to effectively address the root cause of the problem

WORKSHOPS AND CERTIFICATIONS

- Improving **statistical inferences** : Eindhoven Technology University 10/2023
- Fundamental of **Quantitative Modelling**- Wharton Online 09/2023
- Visual Analytics with **Tableau** - UC Davis 09/2023
- Microsoft Certified **Azure AI-900** 08/2023
- **Numerical Optimization**- Theory and Algorithm : Prof Harish Guruprasad, IIT Madras 08/2022
- An Introduction to **Computational Social Science** : Prof P. Kumaraguru, IIIT Hyderabad 07/2022

ACHIEVEMENTS

- Won the **AWS Gameday** at Inclusive Data Hackathon 2023, solving guided problems in limited time
- **2nd Prize**: Paper Presentation- **Good Building Physics(HVAC) for sustainable environment**, ISHRAE- Pune
- Received **TFWS scholarship**- awarded to meritorious students for UG studies
